Maternity Benefits and Supervisor Responsibilities

Upon notification by an employee of anticipated family and/or disability leave, managers and supervisors are responsible for providing access to policies and options. Three particularly useful pages on the UC Net page include:

- What to do if You're Having A Baby
- Pregnancy, Newborn Child and Adopted Child Fact Sheet
- Family and Medical Leave Fact Sheet

These, and many other helpful resources for the employee, including classes, campus resources, other leave options and policies, can be found on the WorkLife Maternity page.
